No. 6,759,154, discloses purification devices in a storage vessel, which include distillers, deionizers, and filters.

However, the prior art of record, taken either alone or in combination, does not disclose or render obvious, a fuel cell system comprising a fuel cell, a reforming reactor, a drain for condensed water stored in the reforming reactor, and a purifier for the condensed water, the purifier being a combustor for off-gas discharged from the fuel cell.
